## Closing down of the Centre for Physiology and Bioimaging

Dear users of the Core Facility services at the Centre for Physiology and Bioimaging,

As most of you are aware of, the Academy Board at the Sahlgrenska Academy has decided to close down this facility. The closing date was not fixed but has now been set to **October 1st**.

This may seem as a short notice but we have been in contact with all major users of the facility including owners of instrumentation placed at CPI. The principal investigators will, from October 1st take full responsibility for equipment owned by themselves and the Core Facilities will only refer to these groups and their willingness to help colleagues on a case-to-case basis. Most of the equipment, owned by the Core Facilities will be possible to rent for a low fee defined in time and place. For a complete list of instrumentation and contact details you may contact Elisabet Carlsohn at the Core Facilities ([elisabet.carlsohn@gu.se](mailto:elisabet.carlsohn@gu.se)).

Finally we want to thank you for all good collaborations at CPI over the years,

Best Regards,

A handwritten signature in blue ink, appearing to read "Goran", with a long horizontal flourish extending to the right.

Göran Larson
